Sociocultural evolution, sociocultural evolutionism or cultural evolution are theories of cultural and social evolution that describe how cultures and societies change over time. Whereas sociocultural development traces processes that tend to increase the complexity of a society or culture, sociocultural evolution also considers processes that can lead to decreases in complexity (degeneration).

Definition. Social change may refer to the notion of social progress or sociocultural evolution, the philosophical idea that society moves forward by evolutionary means. It may refer to a paradigmatic change in the socio-economic structure, for instance a shift away from feudalism and towards capitalism. Accordingly, it may also refer to social revolution, such as the Socialist revolution.

This paper explores the social change of the past 40 years through reporting the results of a restudy. It argues that social change can be understood, culturally, as involving a process of de-institutionalisation and, structurally, as involving differentiation within elementary family groups as well as within extended family networks. Family change is set in the context of changes in the ...
